Proud member of the Jefferson County League of Cities & the Kentucky League of Cities

MAYOR'S MESSAGE...

CHEERS to 50 years! Happy Birthday Douglass Hills Swim and Dive Team!!

And CONGRATULATIONS 2022 LSA Swim and Dive Champions!

You know the old saying, "You have to see it to believe it?" Well, that's how I feel every summer when the pool opens, and summer fun begins. Organized chaos? Yes, another word to describe our legendary swim and dive team seasons.

On June 30th, Louisville Metro Council declared that day as **Douglass Hills Hurricane Day** in the City of Louisville. The recognition was presented at the DH Alumni swim meet held that evening. 20 + championships, 2 Olympians, hundreds of scholarships, and thousands of kids have learned to swim at our 25-meter pool. Generations of friends who have become families is the foundation of our pool facility, and to be able to win both the dive and swim championships just added to the history of this legendary team. Thanks to all of those who came from across the country and some from outside the USA to celebrate the accomplishments of Douglass Hills Hurricanes.

July 1st, we cut the ribbon on our beautiful new playground. This was a yearlong project chaired by council member Matt Nelson and was paid for with the ARPA funding we received. There are still a few touchups to do, but the playground is a big hit with our kids. Please help us maintain the playground and keep our kids safe by following the posted rules at the playground.

Our Independence Day fireworks were on July 2nd, and we had the largest crowd ever at the event. Estimates were around 5,000 folks who enjoyed music from Caribou, and the fireworks that evening. Thanks to all who attended. Make plans for next year when we celebrate our nation's independence, and our 50th Birthday!

So many improvements have taken place this year with more to come. We will hopefully soon begin work on our Bill Lile Running Creek Park, finalize a new drainage and designated parking spaces project around Gatehouse Lane, and last month we awarded our road paving bid to Libs Paving. We are about 6 weeks out on road paving, but it will be done as soon as possible.

If you are new to the City, Welcome! Please contact us at City Hall for any questions you may have about ordinances, services or any other concerns. We are open 8:30-5:00 M-F.

The phone number to City Hall is 502-245-3600. Council meetings are the 1st Thursday of each month, 7:00pm at City Hall, or you can watch the meeting on our Facebook-City of Douglass Hills, KY.

Post Office (Middletown): 245-1120
Water Company: 583-6610

EASEMENTS

A common question in the City is responsibility for maintaining of easements. Each lot in the City normally has a drainage easement along the back property line and utility (gas & electric) easements on the side of each lot.

The short answer is that an easement is still owned by you, and you must maintain it. An easement is only a right of use for a particular purpose. Easements still must be maintained like the rest of your yard, with few exceptions, that will be noted below.

Metropolitan Sewer District (MSD) is the agency in the county responsible for drainage and storm water control. Therefore, if something in the MSD easement was blocking the flow of water, MSD could enter its easement and remove the blockage. However, MSD is not going to perform routine maintenance in these drainage easements. The exception to this is for "major channels", which are defined as a large ditch (30 or more feet wide) draining water from several neighborhoods that cannot be maintained with normal lawn care equipment.

The same principals apply to the utility easements on the side of each lot. The easement allows LG&E to install and service its supply lines. However, LG&E is not required to cut the grass on either side of each lot in the City.

Drainage easement maintenance is important. Small things can pile up and then when a large rain event occurs, sticks, leaves and debris can accumulate at choke-points and cause flooding. Regular maintenance of back yard drainage easements as part of your normal lawn maintenance makes a big difference during major storm events.

2022 Pop-Up Drop-Off Schedule

April 2	Sun Valley Ball Field, 10401 Lower River Road
April 30	Metro Fleet Services, 3515 Newburg Road
May 21	UofL Shelby Campus, 440 N Whittington Parkway

EXTREME HEAT AND ITS POTENTIAL IMPACT ON YOUR MONTHLY BILL

The heat is on ... and that could mean a significant jump in your monthly energy use. During the dog days of summer, your air conditioner is likely to run a lot more. Use these energy-efficiency tips to help you get the most bang for your energy buck.

- **Give that A/C some TLC:** Have a professional inspect and tune up your air conditioner to improve its efficiency and ensure peak performance. Be sure to also check – and replace, if needed – your air filter every month.
- **“Throwing shade” can be a good thing:** Keep curtains, drapes and blinds closed during the hottest part of the day to prevent the sun’s rays from heating your home.

- **Turn up the savings:** Adjust your home’s thermostat up two degrees in the summer. Using a programmable thermostat can also help you save up to 10% in energy usage all year long. Don’t have one? Use our Marketplace (lge-ku.com/marketplace) for helpful, quick comparisons on more than 10,000 appliances and electronics – including thermostats.

To track temperature spikes that are most likely to have an impact on your monthly utility bill, check out our weather calendar at lge-ku.com/weather. You can see the average temperature for each day and the average temperature of that day the previous year for your general location.

Visit lge-ku.com/tips for even more ways to save this summer, including simple how-to videos featuring our employees.

WANT TO SUPPORT 100% RENEWABLES? USE THIS TOOL

If you’ve been thinking lately about doing more to support renewable energy, such as local solar or wind and solar options in bordering states, you’re in luck thanks to our Renewable Choice Calculator (RCC). The tool helps you combine shares from our Solar Share program (lge-ku.com/solar-share) with blocks from our Green Energy program (lge-ku.com/green). Most customers can support 100% renewable energy at a level equal to 100% of their normal energy use for less than a dollar a day or just 5% more on their monthly bill.

The RCC uses your rate class and average monthly bill to calculate shares from the Solar Share program and renewable energy certificates from the Green Energy program, allowing you to support renewable energy in an affordable fashion – without the significant upfront costs associated with installing a private solar system and the long-term costs of maintaining it.

Visit lge-ku.com/calculator to learn more.

USE OUR SELF-SERVICE OPTIONS AND FAST PATH TO GET INFORMATION FAST

Did you know you can call us 24/7 to learn your account balance, pay by phone or find out when your bill is due? Use our self-service options to take advantage of our automated system anytime, day or night. Have your account information ready to enter when prompted.
